Klein Barnum (°1992) consists of a team of more than 50 professional actors and moderators, in English, Dutch or French. All of them have received a specific training, supplemented with level-up sessions. Bringing so many different talents together, that demands **strong principles**.

SEEING SHARPER, EXPERIENCE INTENSIVE, AWARE LEARNING, REMEMBERING LONGER

This results in training programmes at the cutting edge of **recognition, experience and reflection**.

Our **theatre and video productions** deal with:

- general communication skills
- strategic messages
- sensitive issues

Our **workshops and practical simulations** offer a wide variety of learning styles. They offer participants insight into and access to skills through concrete practical situations and inviting work methods.

YOUR GUARANTEE FOR A SUCCESSFUL PROJECT

Our work methods are aimed at really reaching people. Through our theatre background we look at things from a particular perspective: 'we hold a mirror up to nature'.

- **Empathy as a basic attitude**
Essential to understand your objective with our custom-made theatre. A lever for participants to reach understanding during our workshops.
- **Humour as a catalyst**
Humour can move mountains, and open minds. It does not prevent us from pursuing learning goals in earnest.
- **Didactic-based programs**
With generally accepted theoretical and psychological models.
- **A people-oriented and accessible style**
This helps us to find the right tone, custom-made to each audience. Respectful, non-didactic and inviting.
- **The conviction in the potential of each individual.**
